

Dockets Management Branch (HFA-305)

Docket No. 98N-1265

Food and Drug Administration 99 APR 14 AIC:00

5600 Fishers Lane

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

Anita J. Mandeville

COMMENTS: I have used Compounded Medication
(HRT) for 1 1/2 yrs. I did try a chemical prescription
but could not tolerate it. My Compounded
medication alleviates symptoms associated
with menopause which were not very pleasant.
I now sleep well and have much less
anxiety ^(very little) - not to mention that it helps me
avoid osteoporosis and protects me against heart
disease.

Being without my Compounded prescription
would compromise my quality of life by not
enabling me to get medication my Gyn prescribed
(not to mention that my heart Dr. wants me to take it
too).
